

Screening Trees

majestic
t r e e s

Trees that block, hide or give privacy are usually called screening trees. They are often evergreen, but can be deciduous. Not limited to conifers and hedging, screening may also take the form of pleached trees to form an aerial hedge or densely branching standards which allow design scope for underplanting with shrubs and perennials. Our list includes all these options, but please contact us for further advice as required.

Thank you for your interest in Majestic Trees. We are pleased to provide you with our current availability of trees. The trees detailed on the list are those we currently have in stock at our nursery. Numbers can and do change daily, so please call to confirm availability of particular stock. The heights and girths reflect actual heights and girths. Please be aware that there are some items that may not be available for planting immediately, if they are rooting out. These trees are indicated with an estimated date under the 'Available from' column. You may purchase them now as many customers do to get the pick of the litter, but we will not deliver until they have rooted out. We do not provide pricing on line but are more than happy to provide a price list upon request or quote for specific stock. We do not have a minimum order value. In order to more efficiently provide you a quote, please have the following information to hand when you contact us:

- a) batch numbers of the trees in which you are interested
- b) if you would like the tree to be delivered, please provide the post code of the delivery address – delivery charges are quoted per order, not per tree
- c) if you would like us to plant the tree(s), please provide pictures and detailed information about the access, including gate and doorway widths, wall heights, sharp corners, number of steps, and overhead obstacles such as guttering, arches, etc. A general overview of the planting area is also helpful.
- d) if you require advice on tree selection, please email photographs of the area to be planted as well as a general overview of the site together with information on soil type if known, what you hope to achieve and any budgetary restrictions. We will then recommend appropriate trees.

Detailed information and advice is available on other areas of the website.

Photinia 'Red Robin' is a very ornamental and economical screening option.

Don't expect a spring show from this cousin of the classic garden favourite; *Magnolia grandiflora* is grown for its glossy, rich, evergreen foliage.

Laurel (*Prunus laurocerasus*) is a classic fast-growing, shade tolerant screener which can be grown as a hedge, shrub, or single stemmed tree.

Fargesia murielae Simba

Evergreen. A lower-growing form, clump-forming and well-behaved. Light green slender culms and masses of small leaves. Lovely in a smaller garden or for mixed planting.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
151310	Bamb	125-150	30	BH	1		Evergreen	Small (up to 6m)

Fargesia rufa

Evergreen. Olive-green canes mature to lean away from the centre to give a symmetrical elegant appearance. Best as a solitary specimen.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
10334	Bamb	150-175	160c	BH	1		Evergreen	Small (up to 6m)

Ilex alta. Camelliifolia - Hedging

Evergreen. A beautiful, large-fruited clone. The long, large, mainly spineless leaves are dark green, reddish-purple when young. Scarlet fruit. Makes excellent hedge, trim in summer. Female.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
157574	Fth	200-250	120	N34	19		Evergreen	Medium (6-12m)

Ilex aq. 'J.C. van Tol'

Evergreen. A superb cultivar with dark, shining, almost spineless, green leaves. Produces large, regular crop of red fruits. Self-pollinating.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
157712	Fth	175-200	120	N36	6		Evergreen	Small (up to 6m)

Ilex aq. 'J.C. van Tol' - Hedging

Evergreen. A superb slow growing cultivar with dark, shining, almost spineless, green leaves. Produces large, regular crop of red fruits. Self-pollinating. Easy maintenance, trim in summer.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
157576	Fth	175-200	200	N36	15		Evergreen	Small (up to 6m)
157301	HS	125	50	J10	1		Evergreen	Small (up to 6m)

Ilex aquifolium

Evergreen. Beautiful and useful evergreen for the British climate. Ideal for hedging. Good in both industrial and coastal areas. Dark green leaves. Slow growing. Female forms produce red fruit.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
159973	QS	125-150	80	J10	2		Evergreen	Very Large (20m +)
159974	QS	200-250	150	J10	1		Evergreen	Very Large (20m +)

Ilex aquifolium - Hedging

Evergreen. Beautiful and useful evergreen for the British climate. Ideal for hedging. Good in both industrial and coastal areas. Dark green leaves. Slow growing. Female forms produce red fruit.

Batch No.	Shape	Size in cm (height) (girth)	Pot Size(L)	Location	Qty Avail	Available From	Leaf Persistence	Size at Maturity
158931	Fth	100-125	35	N01	1		Evergreen	Small (up to 6m)

Ulmus 'Lobel'

Large and fast growing, this narrow, columnar tree eventually becomes broader. It should with stand exposed locations, including those on coasts and is also good for avenues and verges.

Batch No.	Shape	Size in cm		Pot	Location	Qty	Available	Leaf	Size at Maturity
		(height)	(girth)	Size(L)		Avail	From	Persistence	
156305	Std	25-30		250	H35	4		Deciduous	Medium (6-12m)
158345	Std	30-35		250	H35	1		Deciduous	Medium (6-12m)
